

## ***July 31<sup>st</sup> is World Mutt Day!***

07/18/2017

What's a mutt? According to the dictionary, a mutt is a mongrel or mixed breed dog that is not the result of breeding within an existing breed. In other words, the dog belongs to no particular dog family.

That's the story for most of the dogs helped and housed by the [Metro Animal Shelter](#). Not only are they without a human family, they are also without a traceable heritage (without genetic testing) to their own canine family. Talk about adding insult to injury!

What they do have, however, is heart, spirit and the ability to make human families very happy with their unconditional love and eagerness to please.

What are you waiting for!?

Celebrate World Mutt Day by adopting your very own must-have, magnificent, mighty or mini mutt! He or she will love you for becoming their Forever Family!

And remember, if you can't adopt, you can still help the shelter! All you have to do is shop!

Get set up with Fred Meyer Community Rewards and AmazonSmile, and the rewards you get through shopping will turn into donations for FAYMAS and the Metro Animal Shelter! It's perfect, especially with Mother's Day and Father's day just around the corner! Check out our [Donate Page](#), to learn more.
